

Usage guide

Our logo

Our logo family is an important asset to our organisation, a unified brand is vital in all communications we deliver. It helps audiences to understand how different parts of the council relate to each other, and is crucial in driving recognition of the diverse services we provide and organisations we support.

When using our logo, you should always use the master artwork and never recreate or change the logo design. It provides a guarantee of quality for all of the products and services that carry it.

It should be valued and used in accordance with the examples shown in this document.

To ensure you use our logos correctly, follow these tips:

- In most instances our logo will only be used in two colours, black or white, depending on the background colour. Internally, you'll most often use the logo in black against a white background.
- We have two versions of our logo - landscape and stacked. Landscape is the primary option but there may be occasions where the stacked version is more appropriate.
- Our logo sits in the top right-hand corner whenever possible to act as a visual anchor, connecting all our services.
- It should be kept in proportion and positioned at an equal distance from the top and right-hand side of the page.
- Always make sure your don't stretch, rotate or rearrange our logo.

Landscape logo

Stacked logo

Scale

Minimum size

We do not recommend a minimum size for digital use of our logo but ask that it remains clearly legible on your platform.

Exclusion zone

The size of the exclusion zone is based on the height of double L in our logo. Apply the boundary as shown below.

Positioning and layout

A sizes

When correctly applied, logo widths should be scaled to A-size documents as per the measurements in the table below.

A5	35 mm
A4	50 mm
A3	70 mm
A2	99 mm
A1	140 mm

Don'ts

Dont's

Whilst we have been clear on how you should use the logo, we feel it's only fair to point out how you shouldn't use it.

Don't change the typeface

Don't rotate the logo

Don't change the relationship between icon and text

Don't cap up the logo

Don't distort the logo

Don't alter the logo

Don't squash or stretch the logo
