UKSPF LCRCA Branding and Publicity Guidance

Version 8.1
June 2025

1. Introduction

Branding and publicity play a key role in ensuring effective promotion and acknowledgement of the UK Shared Prosperity Fund.

2. Government Guidance

UK Government publicity and branding requirements must be followed for all UK Government funded projects. This includes the UKSPF. The requirements cover a number of areas including logo use, production of plaques, print and digital materials, and also co-branding.

For the UKSPF, co-branding is only permitted with lead local authorities (or any strategic geography branding) or funders.

Branding and publicity guidance for UK Shared Prosperity Fund is found here:

- [UK Shared Prosperity Fund: branding and publicity Guidance](#)
- [UK government Branding Guidelines](#)
- [Funded by UK government Branding Manual](#)

3. Logos

All project deliverers must ensure that the appropriate logos are used prominently in all communications materials and public facing documents relating to project activity funded by UKSPF. This includes plaques and printed publications, through to digital and electronic materials. Their position and size shall be appropriate to the scale of the material or document being used.

The following logos must be used

Funded by UK Government. For further guidance on the 'Funded by UK Government' logo, see the Branding Manual here.	 Funded by UK Government
Liverpool City Region Combined Authority	 LIVERPOOL CITY REGION COMBINED AUTHORITY METROMAYOR LIVERPOOL CITY REGION

4. Logo - Proportion Rules

5. Logos in Proportion on different backgrounds

Logos in proportion - on white background

Logos in proportion - on light background

Logos in proportion - on dark background

Logos in proportion - black on white background

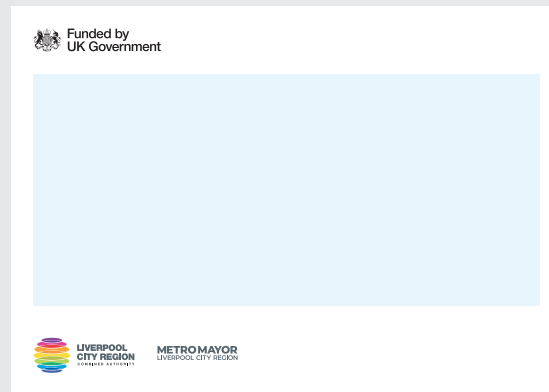

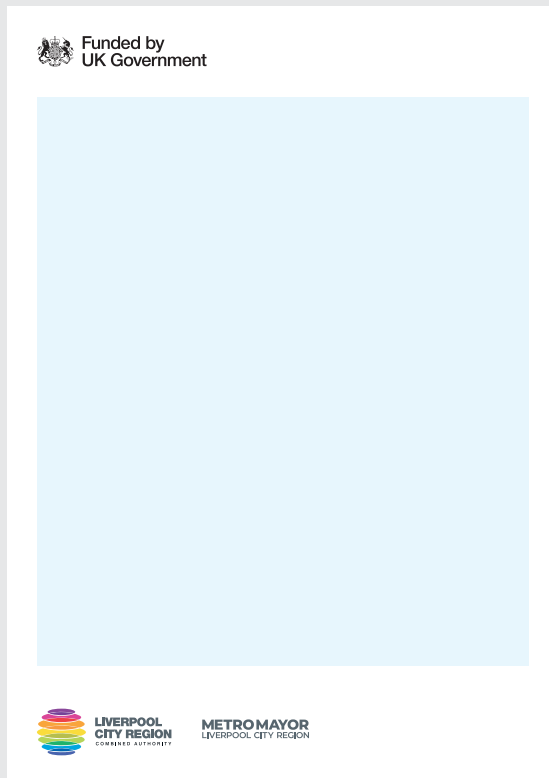

Logos in proportion - white on black background

6. Logo Positions - Dominant Branding

If the UK government's monetary contribution **exceeds 50%** of the total cost, the **Funded by UK Government** logo must be placed in dominant locations.

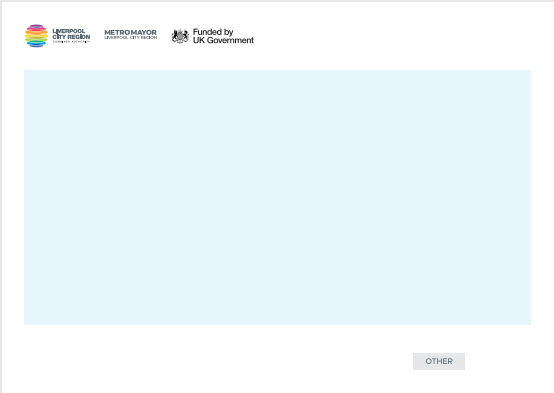

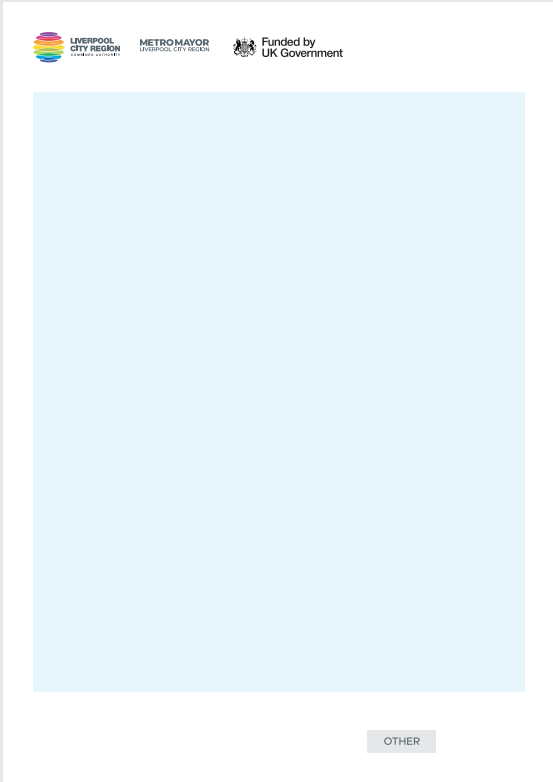

When co-branding with other funding partners, (e.g. Liverpool City Region Combined Authority) their logos can be placed at the foot of the page. Partner logos can only be added if they have funded at least 25% of the project. This includes logos for construction and architectural organisations involved in the project.

7. Logo Positions - Partner Branding

If the UK government’s monetary contribution **matches 50%** of the total cost, the **Funded by UK Government** logo will be placed in a partner location.

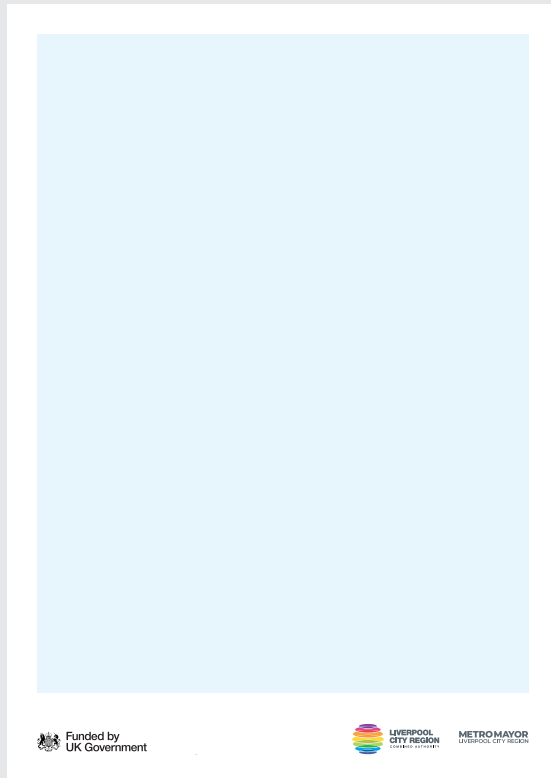

Logos of other organisations that match the funding of the UK government (e.g. Liverpool City Region Combined Authority) can be placed in the top left-hand corner. When co-branding with other funding partners, their logos can be placed at the foot of the page. Partner logos can only be added if they have funded at least 25% of the project. This includes logos for construction and architectural organisations involved in the project.

8. Logo Positions - Secondary Branding

If the UK government's monetary contribution is **10–49%** of the total cost of the project, then use the **Funded by UK Government** logo.

When co-branding with other funding partners, (e.g. Liverpool City Region Combined Authority) their logos can be placed at the bottom right of the page. Partner logos can only be added if they have funded at least 25% of the project. This includes logos for construction and architectural organisations involved in the project.

9. Describing the relationship

When describing your relationship with our organisation we recommend being referred to in full using either of the following statements:

This project is funded by the UK Government through the UK Shared Prosperity Fund with the Liverpool City Region Combined Authority as the lead authority.

This project is part-funded by the UK Government through the UK Shared Prosperity Fund with the Liverpool City Region Combined Authority as the lead authority.

10. Digital materials including websites and social media

Digital channels can provide a quick way to reach audiences and promote Fund activities. Where details of Fund activities are published on website, a clear and prominent reference to the funding from the UKSPF is to be included as follows:

‘This project is [funded/part-funded] by the UK Government through the UK Shared Prosperity Fund with the Liverpool City Region Combined Authority as the lead authority.’

Where practical, project deliverers should also include a link to the [UK Shared Prosperity Fund webpage](https://www.gov.uk/government/publications/uk-shared-prosperity-fund-prospectus) and the following text (which must also be used for notes to editors):

The UK Shared Prosperity Fund aims to improve pride in place and increase life chances across the UK investing in communities and place, supporting local business, and people and skills.

For more information, visit <https://www.gov.uk/government/publications/uk-shared-prosperity-fund-prospectus>

When describing or promoting Fund activities on social media such as Twitter, the following hashtag (#) should be used #UKSPF. This will be re-tweetable by UK Government allowing others to follow Fund activities.

11. Press and media including press releases and notes to editors

A cost-effective way to promote Fund activities is through the media. It is good practice to develop press releases at the launch of activities, and subsequently to announce key milestones and achievements.

Press releases must include a clear and prominent reference to the UKSPF, in the main body of the press release as follows:

‘[This project/Name of project] has received £[INSERT AMOUNT] from the UK Government through the UK Shared Prosperity Fund with the Liverpool City Region Combined Authority as the lead authority.’.

It is a requirement to also use set notes to editors in all media activities. The text to use has been provided above in the Digital Materials section.

You should reference the LCRCA and UK Shared Prosperity Funding within the first three paragraphs of a press release, newsletter piece or website article. All press releases and PR campaigns should be signed off by the LCRCA team before circulation.

12. Billboards

Billboards must be erected on the sites of projects where infrastructure or construction projects are being financed by the UKSPF. Billboards must be erected at the start of the works. Billboards should be erected in places easily visible to the public.

Billboards must include the following information:

- Name of the project
- Description of activity supported by the project
- The relevant UKPSF logo's.

This information should take up at least 25% of the total billboard size

13. Permanent plaque

Certain UKSPF Capital projects are required to put up a permanent plaque in a location visible to the general public, no later than six months after completion of the project.

All plaques must be produced and funded by the project (unless otherwise notified). Costs for this should be considered when developing and planning the project. Plaques should be of a significant size (at least 250mm x 200mm) and must include the following information:

- Name of the project
- Description of activity supported by the project
- This project was funded through the UKSPF
- Display the relevant UKSPF logo's

This information should take up at least 25% of the total plaque size.

14. Graphical Versions

The LCRCA has the logo's in following formats:

- Eps
- Png
- Pdf

Please contact a member of the team to obtain the appropriate format. (details overleaf)
